IPADS

iPad Pro 13″

- Connectivity: Wi-Fi & Cellular
- Screen Size: 13 inches
- Display Resolution: 2752 × 2064
- Battery Life: Up to 10 hours
- Storage Options: 256GB, 512GB, 1TB, 2TB
- Processor: M4 chip

iPad Pro 12.9″

- Connectivity: Wi-Fi & Cellular
- Screen Size: 12.9 inch
- Display Resolution: 2732 × 2048
- Battery Life: Up to 10 hours
- Storage: Up to 256GB

iPad Pro 10.5″

- Connectivity: Wi-Fi & Cellular
- Screen Size: 10.5 inches
- Display Resolution: 2224 × 1668
- Battery Life: Up to 10 hours
- Storage: 64GB, 256GB, and 512GB

iPad 11th Gen

- Connectivity: Wi-Fi & Cellular
- Screen Size: 10.9 inches
- Display Resolution: 2360 × 1640
- Battery Life: Up to 10 hours
- Storage Options: 256GB, 512GB, 1TB, 2TB
- Processor: A16 chip

iPad 10th Gen

- Connectivity: Wi-Fi & Cellular
- Screen Size: 10.9 inches
- Display Resolution: 2360 × 1640
- Battery Life: Up to 10 hours
- Storage Options: 256GB
- Processor: A14 chip

iPad 9th Gen

- Connectivity: Wi-Fi & Cellular
- Screen Size: 10.2 inches
- Display Resolution: 2160 × 1620
- Battery Life: Up to 10 hours
- Storage Options: 256GB

iPad 8th Gen

- Connectivity: Wi-Fi & Cellular
- Screen Size: 10.2 inches
- Display Resolution: 2160 × 1620
- Battery Life: Up to 10 hours
- Storage Options: 32GB and 128GB

iPad Mini 6

- Connectivity: Wi-Fi & Cellular
- Screen Size: 8.3 Inches
- Display Resolution: 2266 × 1488
- Battery Life: Up to 10 hours
- Storage Options: 64GB and 256GB

iPad Mini 5

- Connectivity: Wi-Fi & Cellular
- Screen Size: 7.9 inches
- Display Resolution: 2048 × 1536
- Battery Life: Up to 10 hours
- Storage Options: 64GB or 256GB

APPLE PRODUCTS

Macbook Pro M4

- Brand: Apple
- Operating System: macOS
- Screen Size: 14" or 16"
- Processor: Apple M4 chip
- RAM: Up to 24GB
- Colours: Silver, Space Grey

Macbook Pro M2

- Brand: Apple
- Operating System: macOS
- Screen Size: 13" to 16"
- Processor: Apple M2 chip
- RAM: Up to 24GB
- Colours: Silver, Space Grey

MacBook Pro M1

- Brand: Apple
- Operating System: macOS
- Screen Size: 13.3" or 15.4"
- Processor: Apple M1 chip
- RAM: 8GB / 16GB
- Storage: Up to 512GB SSD

iPad 11th Gen

- Brand: Apple
- Operating System: macOS
- Screen Size: 13.3" or 15.4"
- Processor: Intel
- RAM: 8GB / 16GB
- Storage: Up to 512GB SSD

iMac M4

- Brand: Apple
- Operating System: macOS
- Screen Size: 24"
- Processor: Apple M4 chip
- RAM: 16GB
- Storage: 256GB SSD

iMac i9

- Brand: Apple
- Operating System: macOS
- Screen Size: 27"
- Processor: Intel Core i9
- RAM: 64GB
- Storage: 2TB SSD

Mac Mini M4

- Brand: Apple
- Operating System: macOS
- RAM: Up to 24GB unified memory
- Processor: Apple M4 chip (8-core CPU / up to 10-core GPU)
- Storage: Up to 2TB SSD

Apple Air Tag

- Brand: Apple
- Colour: White
- Battery: Replaceable CR2032 coin cell
- Connectivity: Bluetooth LE, Ultra Wideband (U1 chip)
- Range: Up to 100 meters
- Water Resistance: IP67

IPHONES

iPhone 17 Series

- Brand: Apple
- Operating System: macOS
- Screen Size: 14" or 16"
- Processor: Apple M4 chip
- RAM: Up to 24GB
- Colours: Silver, Space Grey

iPhone 16 Series

- Brand: Apple
- Operating System: macOS
- Screen Size: 13" to 16"
- Processor: Apple M2 chip
- RAM: Up to 24GB
- Colours: Silver, Space Grey

iPhone 15 Series

- Brand: Apple
- Operating System: macOS
- Screen Size: 13.3" or 15.4"
- Processor: Apple M1 chip
- RAM: 8GB / 16GB
- Storage: Up to 512GB SSD

iPhone 14 Series

- Brand: Apple
- Operating System: macOS
- Screen Size: 13.3" or 15.4"
- Processor: Intel
- RAM: 8GB / 16GB
- Storage: Up to 512GB SSD

iPhone 13 Series

- Brand: Apple
- Models: iPhone 13 / Mini / Pro / Pro Max
- Connectivity: 4G / 5G & Wi-Fi
- RAM: 8GB
- Screen Size: 5.4-6.7 inches
- Storage: Up to 1TB

iPhone 12 Series

- Brand: Apple
- Models: iPhone 12 / Mini / Pro / Pro Max
- Connectivity: 4G / 5G & Wi-Fi
- RAM: 8GB
- Screen Size: 5.4-6.7 inches
- Storage: Up to 1TB

Anti-Theft Phone Holder

- Robust above-counter installation
- High Security and Alarmed
- Adjustable metal arms to fit to device
- Freely retractable via strong steel cable
- Can be locked down if required

Galaxy A16

- Brand: Samsung
- Connectivity: 4G / 5G & Wi-Fi
- RAM: Up to 8GB
- Screen Size: 6.7″
- Storage: Up to 256GB
- Camera: 50MP

Samsung Galaxy A42

- Brand: Samsung
- Connectivity: 4G / 5G & Wi-Fi
- RAM: 4GB
- Screen Size: 6.6″
- Storage: 128GB
- Camera: 48MP

Samsung Galaxy A05s

- Brand: Samsung
- Connectivity: 4G & Wi-Fi
- RAM: Up to 6GB
- Screen Size: 6.7″
- Storage: Up to 128GB
- Camera: 50MP

Google Pixel 9A

- Brand: Google
- Connectivity: 5G & Wi-Fi
- RAM: 8GB
- Screen Size: 6.3″
- Storage: 128GB / 256GB
- Camera: 48MP

Google Pixel 8r

- Brand: Google
- Connectivity: 5G & Wi-Fi
- RAM: 8GB
- Screen Size: 6.2″
- Storage: 128GB / 256GB
- Camera: 50MP

LAPTOPS

Apple MacBook Pro

- Operating System: Mac OS
- Screen Size: 13″ or 15″
- Processor: M5 Chip 10-Core Apple CPU
- RAM: 16GB
- Storage: Up to 512GB SSD

MSI Gaming

- Model: MSI Katana 15HX 15.6″
- Operating System: Windows
- Screen Size: 15.6″ or 17.3″
- Processor: Intel Core i7 (14th Gen)
- RAM: Up to 32GB
- GPU: RTX 5070 8GB GDDR7
- Storage: Up to 1TB M.2 NVMe

Lenovo ThinkPad

A reliable business laptop designed for productivity, performance and everyday professional use.

- Model: T14/s & P14/s
- Operating system: Windows
- Screen Size: 14″
- Processor: Intel i7 (11th Gen)
- & AMD Ryzen 7 (Zen 3)
- RAM: Up to 32GB
- Storage: Up to 512GB M.2 NVMe

HP

- Model: ProBook Series
- Operating System: Windows
- Screen Size: Available from 14″ to 17″
- Processor: Intel Core i5 / i7 (11th Gen)
- RAM: 16GB
- Storage: Up to 512GB SSD

Dell

- Model: Latitude Series
- Operating System: Windows
- Screen Size: Available from 13″ to 15″
- Processor: Intel Core i5 / i7 (11th Gen)
- RAM: 16GB

HIGH-END COMPUTING

Gaming Laptops

With technological advancement, laptops have more powerful processing capability than ever; some of which now outperform desktop computers through a range of impressive specifications.

Renowned industry names, such as MSI, offer cutting-edge laptops, capable of running multiple complex operations simultaneously. These are ideal for technically advanced projects and video games.

Packed with the latest processors, fast-loading SSDs and up to 64GB of RAM, these machines are versatile for various event arenas, such as gaming, large conference applications, simulations, 3-D rendering and more.

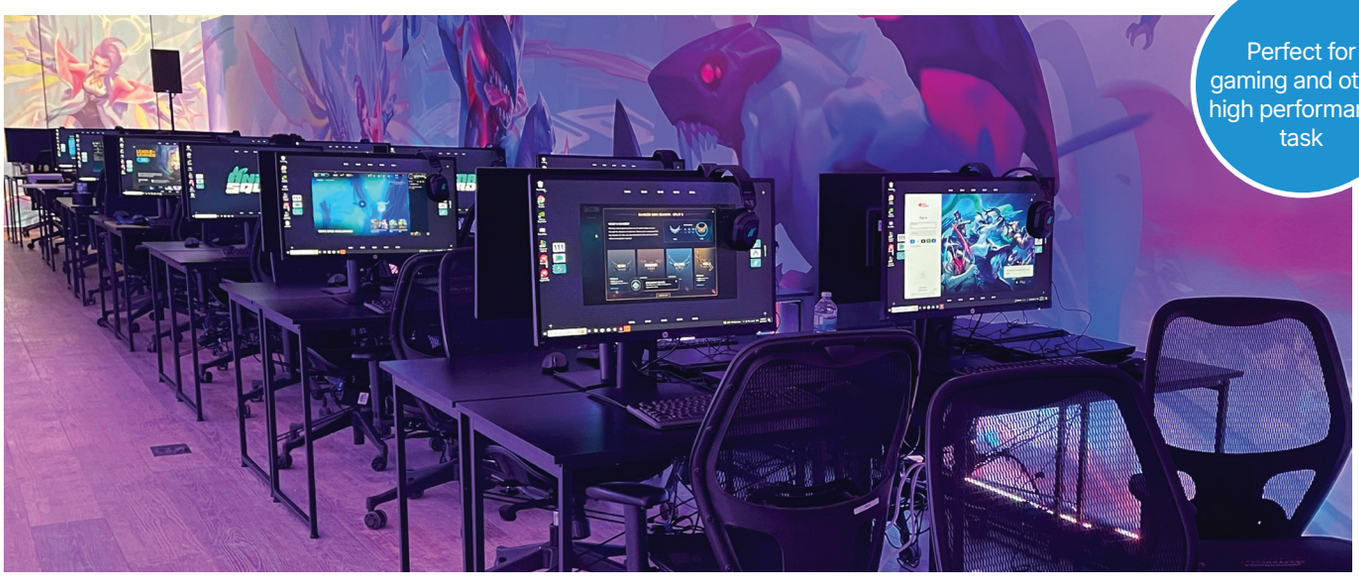

Desktop Computers

We rent desktops engineered with performance and precision in mind. All components are specifically designed to ensure each unit runs at maximum efficiency.

These computers are more than capable of running Gamethon-level events, giving participating players an advantage over the competition.

The latest generation processors, powerful RAM and superfast M.2 NVMe SSD mean these desktops are suitable for an intense range of event styles and requirements.

Perfect for gaming and other high performance task

MONITORS

LG 22″ Monitor

- Full HD 1080p

STANDS & SECURITY

Maclock APEX 360 Desktop Stand

- Suitable for 10.9″
- High-Grade Aluminium Enclosure
- Conceals charging cable
- Quick lock and unlock keyed
- Unlimited tilt for versatile viewing
- Rotate between orientation modes
- Mount it to any counter

Maclock Space 360 Desktop Stand

- Suitable for 10.2″ and 10.5″
- High-Grade Aluminium Enclosure
- Conceals charging cable
- Quick lock and unlock keyed
- Unlimited tilt for versatile viewing
- Rotate between orientation modes
- Mount it to any counter

Modern 360 Desktop Stand

- Fits most tablet models from 6″ to 13″ screens
- Highly flexible - The 360° rotatable base and tablet bracket holder
- Steady support - Light and smooth turning of bracket holder/arm
- Lightweight and versatile

Heckler Stand

- A display stand that can be used to hold all iPads except Pros and minis.
- Can be secured down through adhesive pad or via solid fixing

Basic Desktop Stand

- Suitable for 9.7″, 10.1″, 10.2″, 10.5″
- Anti-theft enclosure with lock and key system
- 90° rotation between portrait and landscape
- 0° to 75° tilting for easy angle adjustment
- Integrated cable management

Floor Stand

- Suitable for 9.7″, 10.1″, 10.2″, 10.5″
- Anti-theft enclosure with lock and key system
- 90° rotation between portrait and landscape
- 0° to 75° tilting for easy angle adjustment
- Integrated cable management

Premium Floor Stand

- Universal, adjustable design suits most popular tablet sizes
- Premium anti-theft enclosure with lock and key system
- 90° rotation between portrait and landscape
- Integrated cable management

Branded Floor Stand

- Fully customised with your branding and event graphics
- Creates a professional and engaging registration experience
- Ideal for conferences, exhibitions and retail activations
- Available with custom-printed graphics and logos

Black Tripod Stand

- Extendible to three heights and holds an iPad still in all positions
- Used mainly for filming from the iPad

iPad Wall Mount

- Space saving solutions
- Professional look and feel
- Can be secured on walls

Kensington Lock

- Allows you to securely attach products such as iPads, desktop stands or MoonBase stands to a fixed object.
- Attachable without having to drill into the desk

Branded Maclock Vinyls

- Custom printed with your event branding, logo or messaging
- Precision-cut to fit Maclock enclosures
- Professional, premium finish for events and exhibitions
- Easy to apply and remove without damaging the enclosure

HEADPHONES & SPEAKERS

- Connect cellular devices such as iPhones and iPads to the internet
- Different local networks available
- Data roaming enabled
- Different data plans based on needs
- Connects to the best available network in your area

iPad Pro
Smart Keyboard Folio

- Protective keyboard cover
- Turns an iPad Pro into a portable mini-laptop
- Connects via lightning port

Bluetooth Keyboard

- Connect iPads via bluetooth
- Great for on the go users; converts a tablet easily into a laptop
- Compact and portable

USB-C Multiport Adapter

- Take advantage of the USB-C port with HDMI and additional USB-C port
- Wide device compatibility - fully compatible with a wide range of devices

Apple Pencils

- Compatible with supported iPad models
- Ideal for note-taking, drawing and digital annotation
- Low-latency, precision input for a natural writing experience
- Available to rent alongside iPads and tablets

TABLET ACCESSORIES

Lightning Cable

- Connect, charge, sync your iPad, iPhone and iPod Touch
- Available in 1M or 3M

Lightning to VGA Adapter

- Connects an iPad to a monitor, TV, projector or display, via a lightning port

USB-C to Lightning

- Connects an iPad to a monitor, TV, projector or display through a 30 pin adapter

OWR Dual Port USB Plug

- Fast charging
- Accomodates up to 2 devices
- Available across all regions

OWR Power Bank

- Portable power source to charge on the go
- Charge 2-4 devices at once
- Approximately 4 full charges for one device
- Can be charged with a micro USB cable into a USB wall adapter
- Up to 30000mAh

Apple Single USB-A Plug (12W)

- Available for all regions
- 12W USB-A power adapter
- Compatible with a wide range of Apple devices
- Available across all global regions

OWR USB-C Plug Fast Charger (65W)

- Available for all regions
- 65W USB-C power adapter for fast charging
- Compatible with a wide range of Apple devices
- Available across all global regions

Universal Adapters

- International travel adapters
- Conversion tool
- Available for all regions worldwide

OWR 10 Port USB-C Charge Hub

- Charge multiple devices at the same time without using additional adapters
- Charge up to 20 USB devices at once
- USB 3.0 High-Speed Charging

Universal Extension Cable

- Compact, Portable, Safe
- Cassette extension cable reel
- 10 to 25 meters long
- Simple to use by winding and unwinding

Surface Pro Pens

- High quality touch screen smart pens for your Surface Pros
- Sensitive touch is perfect for smooth operation

EPOS & PAYMENT TERMINALS

Square Reader

- Accepts chip and PIN and contactless cards/devices
- Connect wirelessly via Bluetooth to a tablet or phone
- Accept payments quickly
- Powerful battery lasts all day

Square Dock

- Upward tilt makes it easy to accept chip + PIN and contactless payments
- Keep at point of sale

Square Stand

- Professional, sleek design
- Makes the Square POS app even easier for your staff and customers to use
- Use whilst keeping your iPad fully charged

L7 Case

- Ergonomic and light allowing for flexible payment solutions
- Soft housing for your device and hard poly-carbonate back cover
- Fits iPad 2 & 3 mini

Square Bundle

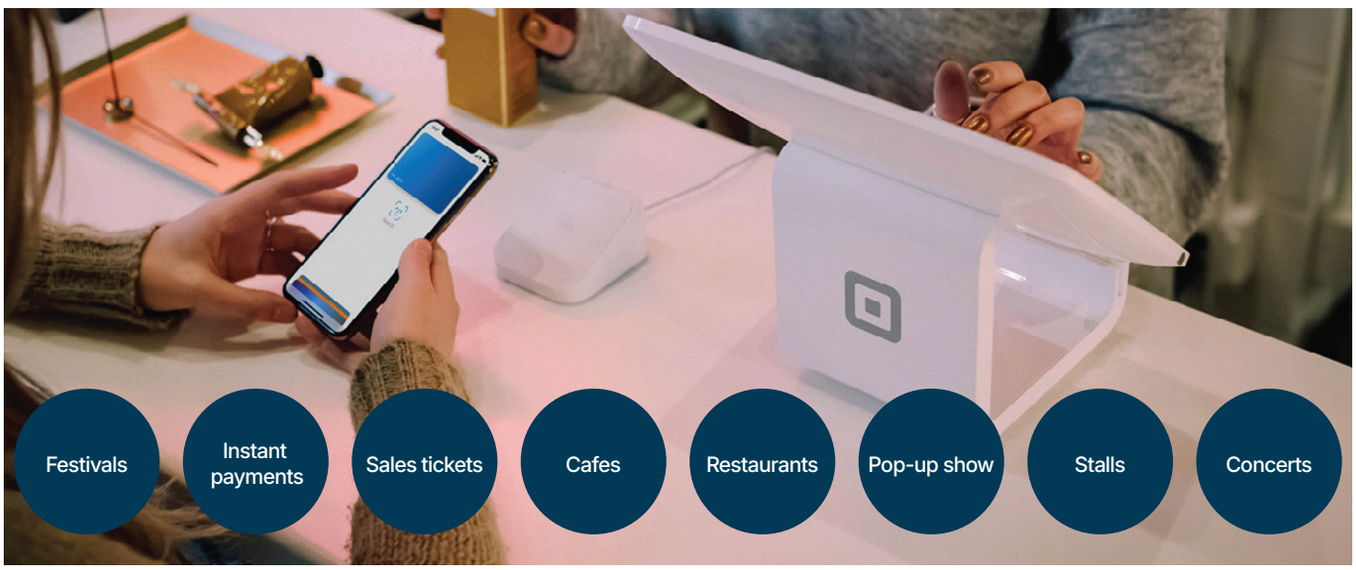

Bundle includes:
Square stand
Cash drawer
Receipt printer

We also offer a full customised menu service for Square software!

Speak to our team for more info.

squarehires@oneworldrental.com

EPOS & PAYMENT TERMINALS

Zettle Reader

- Accept payments from: MasterCard, Visa, American Express, Maestro, Visa Electron
- Bluetooth connectivity
- All-day power supply

Zettle Charging Dock

- Perfect to keep card reader on a counter
- Ensures card reader is always charged
- Makes card payments easy

SumUp Solo Bundle

- All day battery capacity
- Accepts all payments
- 3G and wifi capable connection
- Compact design fits in your pocket

SumUp Air

- Count a large amount of cash at the same time
- Electronic
- Can count up to 1000 notes per minute
- Detects fraud notes through the use of UV lighting

SumUp 3G

- Accepts all payments
- Process payments with 3G data coverage
- Built-in printer, everything you need to get started

Cash Drawer

- Stores money safely during events
- Available options: Manual, Electronic, Key turning

Bank Note Currency Counter

- Count a large amount of cash at the same time
- Electronic
- Can count up to 1000 notes per minute
- Detects fraud notes through the use of UV lighting

Heckler Stand

- A display stand that can be used to hold all iPads except Pros and minis
- Can be secured through adhesive pad or via solid fixing

EPOS & PAYMENT TERMINALS

Star TSP100 Series

- A thermal printer used mainly for EPOS set ups.
- Ethernet
- Wireless Lan
- Bluetooth
- USB Type-B
- Lightning Capabilities

Star TSP654IIBI

- A Bluetooth thermal receipt printer. Used mainly for EPOS set ups.
- Connectivity: Bluetooth
- Print Speed: 300mm/s
- Resolution: 203dpi

Epson TM-T20

- Used mainly for the purpose of an EPOS set up
- Prints at a fast speed
- Easy to use and reliable
- Will print a receipt of an order when run through the till

Till Roll

- Used for client receipts when an order is run through the till

Square Terminal

- Simple and secure
- Take payments and print receipts seamlessly from one portable, cordless device
- Tap a contactless card or device
- width of 3.35" (85 mm)
- payments via three methods: tap, swipe, or dip

Square Stand Version 2

- Compatible iPad into a powerful point-of-sale
- customers want to pay, contactless options like Apple Pay, Google Pay, and Samsung Pay
- Square Stand is compatible with USB, Bluetooth and network hardware accessories

We also offer a full customised Registration & Badging solutions. Speak to our team of more info.

NETWORKING & WI-FI

Enterprise 4G Router

- Provides secure, high-speed 4G internet connectivity for events, exhibitions and temporary business environments

Enterprise 5G Router

- Delivers ultra-fast 5G internet connectivity with low latency for high-demand event and business applications

4G LTE MiFi Router

- MiFi Routers allow you to connect 1-7 devices to the internet at once
- The MiFi Router needs a 4G SIM Card for up to 7 devices

Personalised Bonded Internet Setup

- For intricate set ups
- Will allow for any sized event to have a personalised network

Ruckus ZoneFlex R720 Indoor AP

- Indoor Wi-Fi solution
- Industry-leading performance and reliability

Ruckus ZoneFlex T710 Outdoor AP

- For outdoor Wi-Fi connections, festivals and pop-up shops

Satellite Internet

- Full installation services of satellite internet
- Ideal for events in locations with limited or no internet, for areas that lack existing infrastructure and mobile events

Point to Point & Point to Multipoint Wi-Fi

- For events and festivals
- Connect multiple locations to one single central location

Peplink Enterprise Router

- High speed and reliable
- Highest internet connectivity
- For small offices, training sessions and conferences

Fibre Optic Cabling

- Wider bandwidth and fast transmission solutions

Wi-Fi in a Box

An all-in-one, plug and play Wi-Fi setup. Perfect for a range of events.

- Provides WiFi to 100+ users concurrently
- Bandwidth control
- Light and portable
- 24/7 Remote support
- Equipped with pull handle

→
Learn more about our variety of Wi-Fi services on pages 24-26

WI-FI IN A BOX

The latest in wifi delivery for people who struggle to get local broadband connection or who need a stable, regular and temporary set up.

Scalable

Each box can accommodate over 100 users, and you can quickly scale it up to meet your requirements. It provides bandwidth allocation for each user.

Simple Install

No installation needed. Simply plug the box into the power and following the instructions on the side of the box.
It will be up and running in just three minutes.

International

No delivery is out of reach. World wide shipment and delivery made capable through our very own logistics department, allowing us to cut costs to you.

Dependable

We offer both remote and on-site technical support 24/7 throughout your rental period.

SATELLITE WI-FI SERVICES

At One World Rental, we understand the seamless connectivity is crucial during events. Whether you're organizing a small gathering or a large-scale business conference, our satellite Wi-Fi is designed to enhance your event experience.

Global Reach

One World's satellite Wi-Fi solutions are at your service, delivering reliable connectivity wherever your event takes place.

Connectivity Options

We provide flexible bonding of satellite, LTE, 5G, or hardline connections for guaranteed uninterrupted connectivity.

Comprehensive Services

Our commitment to excellence extends to our service suite, which includes setup, on-site support, and remote assistance.

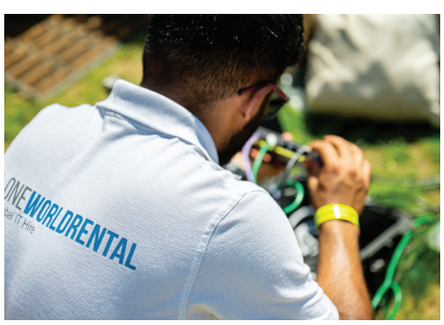

Dependable

We offer both remote & on-site technical support 24/7 throughout your rental period.

WI-FI INTERNET SERVICES

One World Rental, has delivered Bespoke Wi-Fi Solutions to enhance connectivity and productivity at events.

The challenge at these diverse events was providing robust and reliable Wi-Fi connectivity to handle the high traffic loads expected from attendees, vendors, and media. Each event presented unique challenges, including remote locations, large outdoor spaces, and the need for a wide range of SSIDs to meet client requirements.

Satellite Connection

We utilise a satellite connection to ensure connectivity in remote areas. This connection is bolstered by using an Enterprise Router, which bonds 4G connections with satellite and fibre connections ranging from 1 to 10Gbps.

Point to Point Multipoint Antennas

We deploy High-range Point-to-Point and Multipoint antennas. These antenna systems are strategically positioned to enable efficient data transmission over extensive distances and across challenging terrains.

Multiple SSIDs

We use a wide range of SSIDs (Service Set Identifiers) which are created to cater to the diverse requirements of clients and attendees, offering segmented access for different user groups.

Custom Configurations

Our team of experts is currently implementing a variety of configurations to optimize network performance. This includes load balancing, channel optimization, and security measures to safeguard against potential cyber threats.

Indoor/Outdoor Access Points

We strategically place Access Points across event sites to maximize coverage. These professional-grade devices ensure stable connections for attendees across the entire area.

On-Site Support

We provide on-site support from professional network engineers and technicians during the events. This ensures that any connectivity issues or technical glitches are promptly addressed, minimizing disruptions.

PRINTERS

- Launch calls on your desk phone from your desktop
- Access to full range of UnifiedCommunications features
- Easy to use and manage
- Work seamlessly as if you were in the office and save on call costs

Instant Number Provision and SIP Trunking Solutions from anywhere in the world.

Local Number DIDs for a range of event types, including temporary and permanent office setups.

ALLEN&HEATH

QU-16 Digital Mixer

Qu-16 reshapes digital mixing, combining innovative design and exceptional functionality to create a superb professional mixing experience.

Bristling with all the features you'd expect from a top notch digital console and incorporating technologies pioneered on the GLD and iLive digital mixing systems, Qu-16 has the power and pedigree to deliver class-leading audio performance.

Qu is an entire ecosystem with Remote AudioRacks allowing I/O to be placed where it's needed, ME Personal Mixers expanding monitor mixes and enabling simple, time-saving local control.

Qu series features include multitrack recording direct to USB, Automatic Mic Mixing, ProFactory direct to USB, Automatic Mic Mixing, ProFactory apps, accessories and remote I/O.

Qu Apps for complete remote setup and wireless mixing on stage or anywhere else in the venue, ProFactory Mic presets to speed up preparation time and ensure the best sound, plus USB recording and DAW integration for powerful workflow optimisation from one centrepiece device.

SENNHEISER

Semmheiser Microphone

Sennheiser EW100 G4-ME2-GB Lapel Mic

This versatile wireless body pack system is the perfect choice for speech and vocals while remaining hands free.

The state-of-the-art transmitter design features a lightweight metal casing with backlit LCD screen and microphone mute switch.

The lapel microphone contains a high-quality omni-directional condenser capsule and is designed for performance and speech intelligibility.

Sennheiser XSW 1-835 Wireless Handheld Mic

Vocal Set is a user-friendly all-in-one wireless system that is perfect for live vocal performances and spoken word presentations alike.

Featuring Sennheiser's renowned evolution microphone capsule with a cardioid pick-up pattern, the XSW 1-835 system delivers natural vocal reproduction while rejecting feedback and eliminating ambient noise.

Operating within the the 863MHz-865MHz frequency range, the XSW wireless microphone system is equipped with automatic frequency management and synchronization via remote channel, integrated antennas and professional True Diversity technology.

YAMAHA commercial audio

Semmheiser Microphone

The DXR12 is an extremely high-power loudspeaker that is capable of producing a maximum SPL of 132dB with its impressive 1100W of power.

It is the perfect solution for live sound applications that demand wide bandwidth and extremely high-resolution sound.

Features

- 12" 2-way, Bi-amp powered speaker, bass-reflex type
- High-efficiency 1100W class-D amplifiers
- Intelligent onboard 3-channel mixer
- Superior components
- Unequalled performance
- 132dB SPL

Rigging Points for Standard Eye-Bolts and Optional U-Brackets

DXR Series loudspeakers are equipped with rigging points, allowing for rigged application with standard eyebolts*. When more versatility is required, optional U-brackets allow simple and easy rigging in both horizontal and vertical configurations.

Dual-Angle Pole Mount Socket

The DXR's pole mount socket offers two positions—0° and 7°—to direct the acoustic energy away from reflective surfaces and on to your audience where it belongs.

Roland
Professional A/V

V1-HD seamless switcher

UltraStudio Mini Recorder gives Roland V-1HD recording and Live Streaming capabilities on main social media platforms.

Videography and Webcast

The compact V-1HD is an ideal portable solution for switching video and action cameras for webcasts or recording.

Visual Performance

The V-1HD effortlessly mixes high resolution computer and HD camera sources and gives visual artists unique filter effects and transition performance features including Roland's legendary "TRANSFORMER" buttons.

Education

The V-1HD is an easy to use tool for students of all ages to broadcast or record sporting events, performances and other activities around campus.

Event and Meetings

The V-1HD is ideal for presentations in conference rooms or at live events allowing for switching of video from different sources such as computers and video cameras.

Giant Tablets

These multiple award-winning products draw people in, create buzz at events, and best of all, increase sales. Use them at exhibitions and trade shows, in retail and hospitality, for education teaching and training, app development, live broadcasts and presentations, and more.

Giant Tablet 27″

A versatile solution to support your presentations and trade show.

- Screen Size: 27″
- Aspect Ratio: 16:9
- Panel: AMVA + LED
- Resolution: 1920 × 1080
- Camera: Yes
- Dimensions: 81cm x 7cm x 44.2cm

Giant Tablet 42″

The flagship interactive engagement solution for events.

- Screen Size: 42″
- Aspect Ratio: 16:9
- Panel: AMVA + LED, AG Coated glass
- Resolution: 1920 × 1080
- Dimensions: 164cm x 11cm x 60.5cm

Giant Tablet 55″

The newest giant touchscreen solution – promoting brands.

- Screen Size: 55″
- Aspect Ratio: 16:9
- Panel: IPS LED, AG Coated glass
- Resolution: 1920 × 1080
- Dimensions: 235cm x 58cm x 114cm

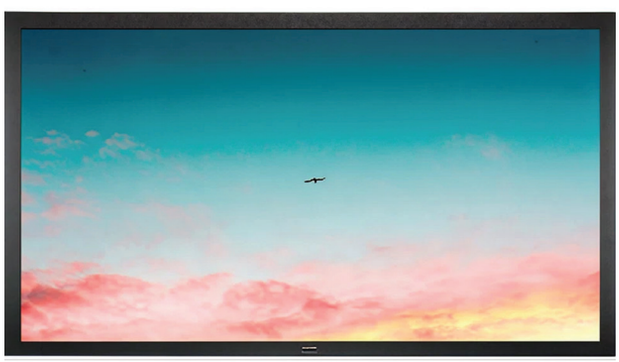

Digital Signage

The purpose of digital signage is to create, inspire and inform. We provide customisable services, using software, to post your Instagram feeds, Twitter competitions, pre-load content to appear onscreen, play video loops and more. This is useful for festivals with rolling bar prices and other real-time information.

TV Screen / Digital Signage Monitors

Sizes available: 32", 55", 85" & LED Panels

Available in: Samsung, LG, Panasonic, iiyama

We currently hold the best technology brands in the industry.

From digital signage, to simple monitors and TVs, Android-ready screens, Magic Touch technology, available with different stands to accommodate different event types.

We use Unicol® stands, ensuring great looking and safe setup.

Touch Screen Monitors

Sizes available: 27", 32", 43", 55", 65", 75"

All of our touch screens use capacitive touch technology.

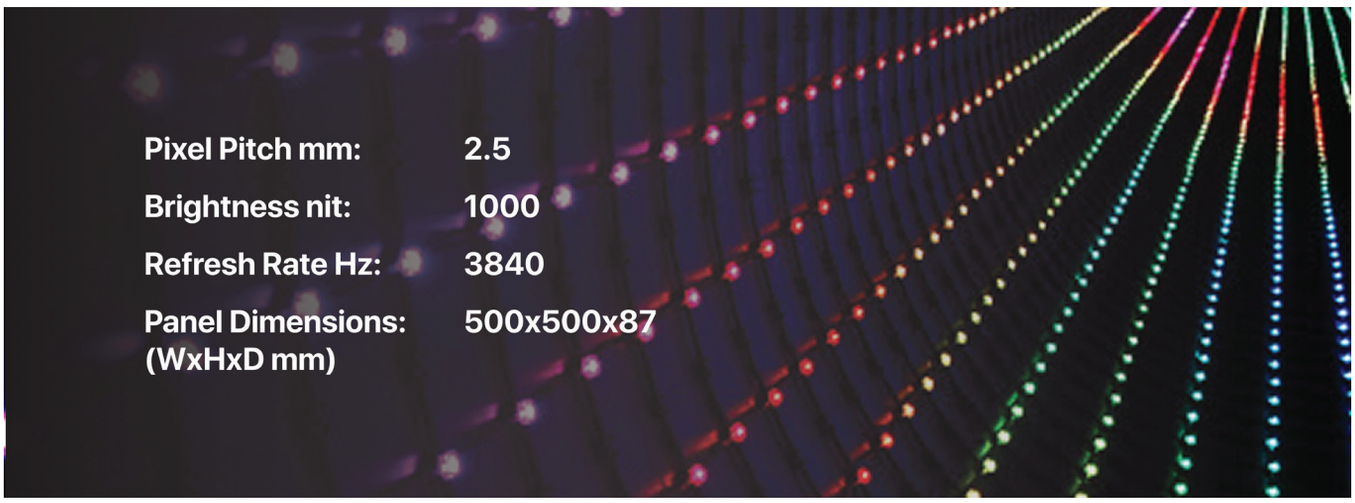

This technology uses a sensor-grid of micro-fine wires integrated into the glass that covers the screen.

Thanks to the glass overlay this technology is highly durable, and the touch function remains unaffected even if the glass is scratched. It offers perfect picture performance and will work with a human finger (also latex gloved) and stylus-pen.

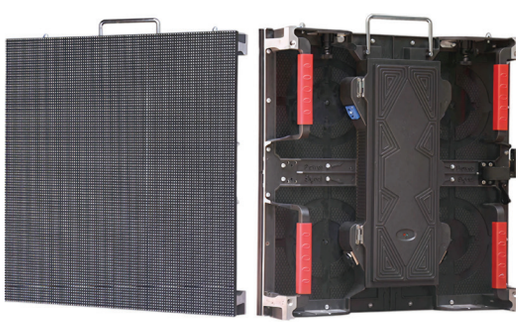

We constantly upgrade our stock, current sizes available may not correspond to our updated inventory. Please ask for the current stock availability.

VISUAL

LED video wall panels

LED wall hire has become a very popular choice for all types of events including conferences, exhibitions and live music.

One World Rental can provide you the latest technology for your event.

2.5 Pixel Pitch ensure optimal viewing distance for your display from both short and long distances, and the curved panels (up to 15 degrees) give freedom of creativity and total reliability to your favourite led wall design.

We constantly upgrade our stock, current sizes available may not correspond to our updated inventory.
Please ask for the current stock availability.

- OS: Qualcomm Snapdragon 821
- Battery: 2-3hrs

Oculus Quest 2

All-in-one Virtual Reality headset

- Field of view: 100°
- RAM: 6 GB
- Storage: 128GB
- OS:Qualcomm Snapdragon XR2
- Battery: 2-3hrs

HoloLens 2

- Protective carrying case
- Overhead strap
- Build collaborative, cross-platform mixed reality applications for HoloLens 2.
- Sensors
- Human Understanding
- Battery life–3 hours of active

PICO 4 / PICO NEO 3

Mobile Virtual Reality headset

- Field of view: 101°
- RAM: 4GB
- 4K resolution
- OS: Qualcomm Snapdragon 845
- Enterterprise Functionality
- Battery: 2hrs

Virtual reality creates a three-dimensional, computer generated environment can be explored by an individual or group of people.

It creates a fun 'optical illusion' which many industries use to promote new games or schools utilise for an interactive learning experience. Virtual Reality can be integrated with apps on Samsung phones and combined with MSI gaming laptops for the full engaging Virtual Reality experience. Our equipment enables users to:

- Engage guests with live tours
- Create fun games and competitions
- Virtual reality gamification
- 360-degree virtual experiences

How is AR different to VR?

Virtual reality means computer-generated environments for a user to interact with, and be immersed in. Augmented reality adds and enhances the reality a user would ordinarily see rather than replacing it.

Augmented reality can provide many benefits to any kind of corporate and public organisation, it allows for organisers to implement:

- Product demos and visualisation
- Interaction through virtual learning
- Broadcasting of live events
- AR can aid in visualising office spaces
- The integration of AR apps
- Social interaction apps
- Translate foreign texts and menus

PROJECT OFFICES

From detail and design, to delivery & deployment of event infrastructure

We provide Leased Lines & Ethernet Circuits, Multi-Site WANs and Project Management, giving our clients that extra peace of mind. Our services are perfect for video conferences, temporary or permanent office setups, business conferences and more.

Leased lines & ethernet circuits

Fully scalable bandwidth right up to 10Gb, offering uncontended data circuits with industry-leading SLAs. This solution is suitable for events demanding the most reliable, high-performance circuit needed for business voice, video, and data applications, whether used for Internet, MPLS, or site-to-site access.

Multi-site WANs

Suitable for any sized event that operates across multiple office locations, has remote workers, or is utilising services in the cloud. From next-generation MPLS networks to VPN and point-to-point circuits, our WAN solutions are designed to provide high-speed, secure, and ultra-reliable inter-site and internet connectivity.

Project Management

From design to delivery and deployment of event infrastructure, OWR Project Management partners with you from concept to system design and installation through to the moment of "go-live" and derig. Our solutions and services are underpinned by expert project management every step of the way. After all, providing premium products and systems is only part of the story—how they are delivered, deployed, and supported is every bit as crucial.

Fulfilling specific client event needs from all corners of the globe.

SERVERS

From detail and design, to delivery & deployment of event infrastructure

At OWR, we provide Leased Lines & Ethernet Circuits, Multi-Site WANs and Project Management, giving our clients that extra peace of mind. Our services are perfect for video conferences, temporary or permanent office setups, business conferences and more.

Onsite tech support

Our onsite technicians can provide support with ad hoc onsite tasks and the installation of devices, and can setup, and secure reliable Wi-Fi network configuration. We provide onsite tech support and training for event staff.

Project management

We'll provide project management from full consultation to event completion. This includes liaising with venue staff on all planning elements, arrangements for setup, installation, content and configuration.

Site surveys

We can visit event locations and conduct site surveys and collect information that will enable us to provide the best technical solutions. We evaluate any potential risks or hazards to ensure a smooth and safe operation.

Custom software

We offer bespoke app and software building for each event. This can include menus, form creation, payments, seating charts and floor plans, VIP alerts, splash pages, and social media tracking, among other features.

Operational expertise

We can ease your stress and handle all the logistics and operations for your event. We'll organise the deployment and distribution with efficient transportation to get it exactly where you need it, when you want it.

Pre - configuration

Preconfiguring products and systems ensures you're able to simply plug and play without installing or aligning technical settings. We also offer digital marketing through video creation and integration with digital signage.

Wi-Fi installation

We deliver fast, secure Wi-Fi for any event, anywhere in the world, regardless of existing infrastructure or bandwidth needed, including MiFi, Access Points, hardline, satellite and personalised bonded internet.

Consultancy

We provide consultancy services for event planning, management and logistics from conception to completion to get the best outcome. Our recommendations are based on over a decade of global experience.

OWRLOGISTICS

LOGISTICS

A strategic, logistical platform deeply embedded across the globe.

Event Logistics are the backbone of successful global event technology fulfilment. OWR Logistics is an internal division of One World Rental providing first-class, mission critical storage, logistics, maintenance and on-site operational services.

Inventory

Supplement your own inventory with OWR when required, throttling up only when needed seamlessly.

Storage

Store your own inventory with OWR in global locations minimising costs and maximizing utilisation, giving you overnight access to 12+ regional hubs.

Hardware maintenance and support

Outsource your own inventory maintenance and upkeep to OWR utilising operational and technical expertise at local levels around the world.

Logistics and onsite installation

Move and manage your own inventory at OWR logistics with efficient and failsafe freight forwarding across borders.

EVENT STAFF

Global Workforce Solutions

We provide experienced and flexible professionals with specialist expertise across events, technology, logistics, hospitality, retail and corporate environments, enabling them to become a trusted extension of your team.

From event managers and technicians to registration, logistics and warehouse teams, we deliver skilled professionals who integrate seamlessly with your operations anywhere in the world.

IT/AV technicians

Our highly skilled IT/AV technicians will install and configure your hardware and monitor it for any issues. All equipment for any size event, including setup of digital signage, cable installation, projection, speakers, mics and more.

IT/AV assistant

Our IT/AV assistants can install and configure AV equipment, provide support, sync internet connections, coordinate graphics, support teleconferences, monitor webinars and test sound equipment to specification.

Network engineers

We provide secure, high-speed internet for an extensive range of events. This includes the setup, installation, and troubleshooting of equipment and also repairing/replacing faulty connections on-site.

Lighting engineers

We can program and operate stage lighting equipment, develop technical solutions, and offer advice and technical support. We promote the development and maintenance of best lighting practices and standards.

Event Staff with local knowledge and global experience.

MANAGED SERVICES

Quality Assurance

One World Rental provides a fast, reliable and consistent service including Health & Safety, international coverage and 24/7 global support.

Our dedicated, professional staff are here to help make your event as successful and memorable as possible.

Health & Safety

All of our equipment is checked and monitored regularly and undergoes PAT (Portable Appliance Testing) to meet electrical safety standards. Our equipment is sound, safe, and in perfect condition.

International coverage

One World Rental can deliver technology anywhere with as little as 24 hours' notice. We have global offices and storage facilities which help us to quickly and efficiently deploy event technology and technical staffing.

24/7 Global support

We offer 24/7 technical support during your entire rental period to make sure everything runs efficiently at all times. This can include remote support or an on-site technical presence throughout the event to make it effortless.

Project managers

Our dedicated project managers manage and coordinate complex events to deadline and specific requirements. Educated in logistics and trained accordingly, they'll execute each event precisely, everytime.

Graphic designer

Our graphic designers create artwork that connects with your branding and vision. We'll produce layouts and designs that can solve any digital marketing challenge while showcasing flawlessly at events.

Video producers

Videography and production through visual storytelling. We create content for digital signage and broadcasting at events, conferences and festivals. Professional filming and post production starts here.

ONEWORLD GROUP
